Comprehensive Endpoint Security Provides Immediate Protection Against Cyber Threats

Safeguarding the digital assets of healthcare organizations has never been more important. Per the Poneman Institute, nearly 90 percent of healthcare organizations experienced a data breach in the last two years, with almost half experiencing five or more breaches over the same period.

Tegria Cybersecurity, powered by CrowdStrike, combines best-in-class technology with leading expertise for the highest level of endpoint security.

What We Do

Managed Detection and Response

Incident Triage and Handling

Proactive Security Monitoring

> ❝ CISA, FBI, and HHS have credible information of an increased and imminent cybercrime threat to U.S. hospitals and healthcare providers.
>
> *Joint cybersecurity advisory authored by the Cybersecurity and Infrastructure Security Agency, Department of Health and Human Services, and the FBI, October 2020*

Cybersecurity Quick Facts

Growing Threats and High Costs

+ The healthcare industry is the top target for ransomware attacks.

+ Healthcare cyberattacks increased 50 percent in 2020.

+ The average cost of a data breach is $6M.

+ The average time from discovery to recovery in healthcare is 329 days.

+ With a projected 3.5M unfilled cybersecurity positions in 2021, the industry faces a significant talent shortage.

CROWDSTRIKE | Tegria

Managed Detection and Response (MDR) through Top-Ranked Endpoint Protection

Our cybersecurity solution is powered by CrowdStrike Falcon Complete, the industry leading MDR that helps stop breaches through 24/7 expert management, threat hunting, monitoring and remediation. CrowdStrike's Falcon endpoint protection platform was recently awarded the highest rank in the Gartner 2021 Critical Capabilities for Endpoint Protection Platforms. With cloud-scale AI and patented smart-filtering, this platform delivers next-generation detection and response, threat intelligence, identity protection, and more, without compromising speed or performance.

Solution Features and Benefits

Comprehensive Protection

Protect your organization against zero-day malware, ransomware, and exploits to stay ahead of the rapidly changing tactics, techniques, and procedures used by today's adversaries.

Single, Lightweight Agent

With a single lightweight 25MB agent offering immediate endpoint protection, organizations can eliminate the need to maintain complex security infrastructure.

Reduced IT and Security Burden

We reduce your team's IT and security burden by performing ongoing monitoring, tuning, and updating to continually enhance security performance. We review, triage, prioritize, and resolve alerts generated by the platform, 24/7/365.

Immediate Impact

Upon installation, the agent enables immediate monitoring and protection without additional components, reboots, or complex configuration.
